**To whom it may concern**

The company "Filkab JSC" assisted us by offering their civil engineering and electromechanical services in our five projects in Greece and more specifically in our 2MW project called Solel Achaias, our 2MW project called Solel Imathias, our 500KW project named THESS-Tetarta, our 500KW project named THESS-Varka and our 500KW project named THESS-Strivos.

They are a great company to work with and we highly recommend them.

Best regards,

A handwritten signature in blue ink, consisting of a stylized, cursive script that starts with a large loop and ends with a long horizontal stroke.

Stefanos Lialios

Senior Project Manager
